1. The oath or declaration submitted October 23, 2007 is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability **as defined in 37 CFR 1.56**.

The entire clause must be identified, not just 1.56(a).

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The modified Figure 4 has not been identified as a "Replacement Sheet" or "New Sheet" as necessary. In addition, the Figure as amended is inaccurate and inconsistent with the written disclosure, as a through hole is defined for each packet, and the holes are represented in dot lines which do not represent through holes, but possible through holes or holes to be made from removable portions, which lack antecedent basis. To accurately reflect what is disclosed, the dot lines of proposed Figure 4 must be replaced by solid lines to represent the holes as being there, or an additional Figure must be added showing the same. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. **Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryon P. Gehman whose telephone number is (571) 272-4555. The examiner can normally be reached on Monday through Wednesday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (571) 272-4562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
